PORTFOLIO
vivi0424.github.io/en

LOCATION
St. Petersburg, Russia

Skills

Python
pandas, NumPy, scikit-learn, Transformers, PyTorch, Gensim, spaCy, NLTK

LLM
prompt engineering (zero-/few-shot), YandexGPT API, Groq API, RAG (LlamaIndex), annotation quality evaluation

Data & analytics
Yandex DataLens, statistics, R, SQL (basic), matplotlib, seaborn

Tools
Git / GitHub, Jupyter / Colab, HTML / CSS / JS, Adobe InDesign, Illustrator

Education

2026 — 2028 · MA
Language Technologies in Business and Education
HSE University — St. Petersburg

2022 — 2026 · BA
Philology, Computational Linguistics track
HSE University — St. Petersburg

Languages

Russian	native
English	C1
German	B2
French	A2

Victoria Deborina

Computational Linguist · NLP & LLM · Data Analysis

I use large language models to extract information from texts and annotate them — from prompts and Python pipelines to quality evaluation and dashboards. Creator of an open database of characters from 1,000 20th-century Russian short stories. 7 publications, including Scopus and Springer; 7 conference talks.

Experience

Research Intern
Sep 2025 — present

Language Convergence Laboratory, HSE University — St. Petersburg

- **Russian Short Story Corpus.** Built an LLM-based pipeline (GPT-5.5) that extracts characters and their interactions from **1,000** short stories: **11.8k** characters and **16.4k** links. Designed a typology of 7 interaction types.
- Expert validation on 100 stories: **85%** accuracy. Published the database as a website with interactive character graphs (HTML/JS): site ↗ · GitHub ↗
- **LiveLib "Emotion Map".** Annotating reader reviews with a 26-emotion taxonomy using YandexGPT (my share: about 1/6 of an **800k**-review corpus). Built a multi-page dashboard in Yandex DataLens.
- **Everyday Speech Corpus (ESC).** Anonymized transcripts and detected sensitive data; co-authored a CLIB 2026 paper (Scopus).

Project Team Member
Sep 2026 — present

Severstal × HSE University, team of 5

- "Digital Archivist" prototype for the R&D division: detecting duplicate R&D projects and checking technical specifications. Annotated client specs; building a synthetic dataset.

Python Teaching Assistant
Jan — Mar 2025

HSE University — St. Petersburg

- Graded assignments, held office hours, assessed final project defenses.

Data Processing Assistant (internship)
Summer 2024

Language Convergence Laboratory, HSE University — St. Petersburg

- Wrote Python scripts to clean and merge emotion lexicons; reconciled automatic and expert annotation. Result: a unified dataset of **22k** rows.

Projects

LLMs and Propp's Functions
GitHub ↗

- Compared 5 models (YandexGPT 5.1, DeepSeek V4.1, gpt-oss, Qwen 3.8) across 3 prompting strategies: **750** runs annotating fairy tales.
- Adding function definitions to the prompt raised F1 for every model; best **F1 = 0.74**; consistency measured with Krippendorff's α. Prompts, code and analysis are my own.

RAG and Text Classification
GitHub ↗

- RAG with LlamaIndex (SummaryIndex vs TreeIndex, Groq API). Fine-tuned DistilBERT on AG News (accuracy **0.948**); CNN for sentiment analysis (**0.864**).

Publications

2027 Deborina V., Kirina M. **In Search of the Hero: Comparing LLM and Expert Annotation of Literary Characters (Russian Short Stories, 1900–1930)** // Etnopsikholingvistika [Ethnopsycholinguistics]. 2027. No. 3. (accepted; in Russian)

2027 Deborina V., Kirina M. **Character Census: Using Large Language Models to Extract Information about Literary Characters** // Literature, Language and Computing: Russian Contribution from the LiLaC-2025. Springer, 2027. (in press) **Springer**

2026 Sherstinova T., Petrova I., Melnik A., Chepovetskaia S., Azarevich K., Deborina V. **Everyday Speech of Russian Students: From Field Recordings to the ESC Speech Corpus (Data Processing and Representation)** // Proceedings of the Seventh International Conference Computational Linguistics in Bulgaria (CLIB 2026). Sofia: Institute for Bulgarian Language, BAS, 2026. P. 294–302. **Scopus**

2025 Deborina V., Kirina M. **"Population Census": Using Large Language Models to Extract Information about a Literary Character** // 4th International Conference "Literature, Language and Computing" (LiLaC). Book of Abstracts. St. Petersburg: St. Petersburg University Press, 2025. (in Russian)

2025 Deborina V. **"O chyom" and "pro chto": Grammatical Norm and Variation (Corpus Data)** // 9th Kaliningrad School of Digital Humanities: Proceedings. Kaliningrad: Smartbooks, 2025. (in Russian)

2025 Deborina V. **Russian and International Research in Digital Humanities Compared: A Bibliometric Analysis** // "Tsifra" in Social Sciences and Humanities: Method, Field, Reality. Irkutsk: Irkutsk State University Press, 2025. P. 21–28. (in Russian)

2024 Deborina V. **Digital Humanities through the Lens of Bibliometric Analysis (Publications by Russian Researchers)** // 8th Kaliningrad School of Digital Humanities: Proceedings. Kaliningrad: Smartbooks, 2024. P. 123–127. (in Russian)

Conference talks

2026 **Everyday Speech of Russian Students: From Field Recordings to the ESC Speech Corpus** (co-authored) — 7th International Conference Computational Linguistics in Bulgaria (CLIB 2026), Sofia

2025 **"Population Census": Using Large Language Models to Extract Information about a Literary Character** — 4th International Conference "Literature, Language and Computing" (LiLaC), St. Petersburg

2025 **In Search of the Hero: Using LLMs to Annotate Literary Characters** — 2nd National Conference with International Participation "Language, Text and Culture through the Prism of Digital Technologies"

2025 **"O chyom" and "pro chto": Grammatical Norm and Variation (Corpus Data)** — 9th Kaliningrad School of Digital Humanities (KDH2025)

2024 **Digital Humanities in Russia and Abroad: Mapping the Field with Bibliometric Methods** — National Conference with International Participation "Language, Text and Culture through the Prism of Digital Technologies"

2024 **Digital Humanities through the Lens of Bibliometric Analysis (Publications by Russian Researchers)** — 8th Kaliningrad School of Digital Humanities (KDH2024)

2024 **Russian and International Research in Digital Humanities Compared: A Bibliometric Analysis** — National Conference of Young Scholars "'Tsifra' in Social Sciences and Humanities: Method, Field, Reality?", Irkutsk

Other

2025 Layout designer for the student magazine "Svoimi Slovami" (Adobe InDesign), 2025–2026 academic year

2023 Manual annotation of ~2,000 comments for insults, disagreement, irony and aggression

2026 BA thesis: "Building a Digital Database of Characters in 20th-Century Russian Short Stories" (HSE University — St. Petersburg)
